

YOUR VISION SPECIALIST

DR JOHN HOGDEN

MBBS BSC(MED) FRANZCO

Dr John Hogden is an ophthalmologist with subspecialty training in corneal, external eye disease, cataract, anterior segment and refractive surgery. He trained at the Sydney Eye Hospital and was awarded the Sydney Eye Hospital Travelling Scholarship and RANZCO Topham Scholarship. He then underwent further subspecialty training at the surgically renowned University of British Columbia (UBC) Vancouver Eye Care Centre in Canada.

Dr Hogden is a member of the Royal Australian and New Zealand College of Ophthalmology (RANZCO), American Academy of Ophthalmology (AAO) and the American Society of Cataract and Refractive Surgery (ASCRS). He has a special interest in advancing

refractive surgery and is actively involved in ongoing clinical research with several international papers and publications to his name.

His specialty interests include corneal and lens based refractive surgery, lamellar corneal transplant surgery (such as DMEK, DSAEK and DALK), cataract surgery, the management of irregular astigmatism through topographic guided refractive surgery, keratoconus stabilisation and optimisation, post-refractive ectasia and pterygium surgery.
